HOW DID THE INTERVIEW/MEETING GO? *On a scale from 1 – 5 rate the meeting.*

- 1- Awful. I think I did really badly. It was un-helpful, the person I met with was boring and not friendly at all.*
- 2- Pretty bad. They did most of the talking, gave me some brochures, and I left. I didn't have any questions prepared, so I didn't speak much.*
- 3- Pretty good. I had prepared some questions in advance, so I asked them and got some useful information. I was pretty nervous, but overall it was ok.*
- 4- I did very well. The person I met with was helpful, I got good information. I asked my questions, got satisfactory answers and felt confident after I left.*
- 5- Outstanding. I walked away knowing I had blown them away. I had great questions, I felt confident right from the beginning and I think they now have a great impression of me. I even got their business card and intend to follow up with a few more questions.*
